

Rabbit polyclonal anti-mouse VEGF-C

ORDERING INFORMATION

Catalog No:	mAP-0006
Size:	100 µg
Storage:	< -20° C
Immunogen:	Rat VEGF-C full length protein
Ig Type:	Rabbit IgG
Applications:	WB and IHC

Preparation: This antibody was produced by immunizing rabbits with purified rat VEGF-C recombinant protein. The IgG was purified by affinity chromatography.

Formulation and Storage: The IgG fraction of culture supernatant was purified by Protein G affinity chromatography and lyophilized from a 0.2 µm filtered solution in phosphate-buffered saline (PBS). Lyophilized samples are stable for 2 years from date of receipt when stored at -70°C.

Reconstitution: Reconstitute the antibody with 500 µl sterile PBS and the final concentration is 200µg/ml. Reconstituted antibody can also be aliquoted and stored frozen at < -20 for at least for six months without detectable loss of activity. **Avoid repeated freeze-thaw cycles.**

Specificity: This antibody recognizes rat VEGF-C and has strong cross-reactivity with mouse and human VEGF-C.

Applications:

1.	Western blot	Yes	(1:500-1000)
2.	Immunohistochemistry	Yes	(1:50-200)

4% PFA fixed and paraffin embedded mouse Lung tissue section was subjected to IHC staining of mouse VEGF-C using mAP-0006.
